

KLOVE Radio is vital to the Tucson area because it gives me a choice to listen to commercial free radio that offers hope, encouragement, news and music that lifts our moods and helps us to be happier citizens. It is only fair that the segment of society that I am in has media which we can enjoy. To replace KLOVE would leave a large segment of Tucson unserved and denied the ability to share the music and talk that we like to hear. Thank you for your consideration.
